

StudyWithUs - API & Frontend Route Maps

Generated: 2026-03-25 18:56

1. Domain Rules

- section = Prépa => niveau max 2
- section != Prépa => niveau max 3
- Required teacher surveillance hours = weekly teaching hours
- Required teacher PFE presentations = 3 x number of supervised subjects

2. Main Models

Group	Models
Core	Users, Teachers, Students, Classes, Schedules, Posts, Attendance
Forum	ForumQuestions, ForumAnswers
Department	Departments
Availability	TeacherAvailabilities
Exam	ExamSessions, ExamSurveillanceAssignments
PFE	PFESubjects, PFEPresentationSlots, PFEJuryAssignments

3. Backend API Endpoint Map

All endpoints are mapped below by module, including method and main use-case.

3.1 Authentication

Method	Path	Use-case
POST	/api/auth/login/	Authenticate and issue JWT tokens
POST	/api/auth/register/	Admin registers admin/teacher/student accounts
PATCH	/api/auth/update-pass/	Change current user password
PATCH	/api/auth/update-account/	Update authenticated user profile
POST	/api/auth/forgot-password/	Send password reset email
GET	/api/auth/forgot-password/confirm/	Validate reset link and redirect frontend
POST	/api/auth/forgot_password/reset/	Reset password with uid/token
POST	/api/auth/refresh/	Refresh access/refresh tokens
GET	/api/auth/user/student/	Read authenticated student profile
GET	/api/auth/user/teacher/	Read authenticated teacher profile

3.2 Admin Panel

Method	Path	Use-case
POST	/api/admin/add-classes/	Create classes with section-level constraints
GET	/api/admin/get-classes/	List classes
POST	/api/admin/upload/schedule/	Import teaching schedule from Excel
GET	/api/admin/classes/schedule/	Get schedule for one class
GET	/api/admin/teacher/schedule/	Get one teacher schedule
GET	/api/admin/teacher/get/	List teachers
GET	/api/admin/students/get/	List students for a class
PATCH	/api/admin/students/update/	Update student account/profile/status
DELETE	/api/admin/students/delete/	Delete student
POST	/api/admin/post/upload/	Create lesson/announcement post with PDF
DELETE	/api/admin/post/delete/	Delete post
PATCH	/api/admin/posts/update/	Update post
GET	/api/admin/posts/get/announcement/	List announcements
GET	/api/admin/posts/get/lessons/	List lesson posts by class
POST	/api/admin/forum/questions/create/	Create forum question
POST	/api/admin/forum/questions/answer/	Add forum answer
GET	/api/admin/forum/questions/	List forum questions
POST	/api/admin/teacher/availability/set/	Set teacher availability (surveillance/PFE)
GET	/api/admin/teacher/surveillance-load/	Get computed surveillance load
POST	/api/admin/exam-calendar/manual/	Create one exam session manually
POST	/api/admin/exam-calendar/excel/	Import exam calendar and output PDF URL
POST	/api/admin/pfe/excel/	Import PFE subjects from Excel
POST	/api/admin/pfe/jury/assign/	Assign PFE jury and optional slot
GET	/api/admin/pfe/teacher-quota/	Get teacher PFE quota progress

3.3 Teacher Panel

Method	Path	Use-case
POST	/api/teacher/make_presence/	Record attendance for students in one schedule
GET	/api/teacher/get_absence_made/	List absences marked by current teacher
GET	/api/teacher/get_current_session/	Get active session by day/time
GET	/api/teacher/get_classes/	List classes taught by current teacher

4. Frontend Route Map

Recommended frontend routes aligned 1:1 with available backend APIs.

Area	Frontend Route	Primary backend API
Public	/login	POST /api/auth/login/
Public	/forgot-password	POST /api/auth/forgot-password/
Public	/change-password	POST /api/auth/forget_password/reset/
Shared	/profile	GET /api/auth/user/student/ or /user/teacher/
Shared	/account/settings	PATCH /api/auth/update-account/ and /update-pass/
Shared	/announcements	GET /api/admin/posts/get/announcement/
Shared	/forum	GET /api/admin/forum/questions/
Shared	/forum/new	POST /api/admin/forum/questions/create/
Shared	/forum/:questionId	POST /api/admin/forum/questions/answer/
Student	/student/dashboard	Dashboard aggregate calls
Student	/student/schedule	GET /api/admin/classes/schedule/
Student	/student/lessons	GET /api/admin/posts/get/lessons/
Student	/student/attendance	Attendance-related views
Teacher	/teacher/dashboard	Dashboard aggregate calls
Teacher	/teacher/current-session	GET /api/teacher/get_current_session/
Teacher	/teacher/classes	GET /api/teacher/get_classes/
Teacher	/teacher/attendance/mark	POST /api/teacher/make_presence/
Teacher	/teacher/attendance/history	GET /api/teacher/get_absence_made/
Teacher	/teacher/schedule	GET /api/admin/teacher/schedule/
Teacher	/teacher/surveillance/load	GET /api/admin/teacher/surveillance-load/
Teacher	/teacher/availability	POST /api/admin/teacher/availability/set/
Teacher	/teacher/pfe-quota	GET /api/admin/pfe/teacher-quota/
Admin	/admin/dashboard	Dashboard aggregate calls
Admin	/admin/users/register	POST /api/auth/register/
Admin	/admin/classes	GET/POST classes endpoints
Admin	/admin/classes/schedule/import	POST /api/admin/upload/schedule/
Admin	/admin/classes/:classId/schedule	GET /api/admin/classes/schedule/
Admin	/admin/teachers	GET /api/admin/teacher/get/
Admin	/admin/teachers/:teacherId/schedule	GET /api/admin/teacher/schedule/
Admin	/admin/students	GET /api/admin/students/get/
Admin	/admin/students/:studentId/edit	PATCH /api/admin/students/update/
Admin	/admin/students/:studentId/delete	DELETE /api/admin/students/delete/
Admin	/admin/posts/new	POST /api/admin/post/upload/
Admin	/admin/posts/:postId/edit	PATCH /api/admin/posts/update/
Admin	/admin/posts/:postId/delete	DELETE /api/admin/post/delete/
Admin	/admin/exams/manual	POST /api/admin/exam-calendar/manual/
Admin	/admin/exams/import	POST /api/admin/exam-calendar/excel/
Admin	/admin/pfe/import	POST /api/admin/pfe/excel/
Admin	/admin/pfe/jury	POST /api/admin/pfe/jury/assign/
Admin	/admin/pfe/quotas	GET /api/admin/pfe/teacher-quota/

5. Notes

- Endpoint map reflects current `urls.py` declarations in `auth`, `admin_panel`, and `teacher_panel` modules.
- Frontend routes are proposed to match existing backend capabilities and role guards.
- For production, add route-level guards: `public-only`, `authenticated`, and role-specific `admin/teacher/student` guards.
